

## Domestic **U.S.A. PRICE LIST**

(International Prices will vary.)

-- Not to exceed 5 to 9% --

### **PRICES** for **Bench & Portable** PJ Surge Testers:

<b>DESCRIPTION</b> <i>Click on model name for information.</i>	<b>MODEL NUMBER</b>	<b>MAXIMUM OUTPUT</b>	<b>PRICE US DOLLARS</b>
<b>"H" Models</b> 2 Piece Portable High Frequency Surge Tester	H6	6 KV	\$11,350.00
	H10	10 KV	\$13,360.00
	H12	12 KV	\$15,260.00
	H15	15 KV	\$17,560.00
<b>"S" Models</b> High Frequency Surge Tester	S6	6 KV	\$11,350.00
	S10	10 KV	\$13,360.00
	S12	12 KV	\$15,260.00
	S15	15 KV	\$17,560.00
	S20	20 KV	\$20,590.00
<b>"TS" Models</b> High Frequency Surge Tester with 3 Phase Transfer Switch	TS6	6 KV	\$13,290.00
	TS10	10 KV	\$15,410.00
	TS12	12 KV	\$17,410.00
	TS15	15 KV	\$20,030.00
<b>"TSM" Models</b> Portable High Frequency Surge Tester with 3 Phase Transfer Switch	TSM6	6 KV	\$14,180.00
	TSM10	10 KV	\$16,295.00
	TSM12	12 KV	\$18,300.00
	TSM15	15 KV	\$20,925.00
<b>"SP" Models</b> High Frequency Surge / DC Hi-Pot Tester	SP6	6 KV	\$14,760.00
	SP10	10 KV	\$16,880.00
	SP12	12 KV	\$18,885.00
	SP15	15 KV	\$21,280.00
	SP20	20 KV	\$24,690.00
<b>"SPM" Models</b> Portable High Frequency Surge / DC Hi-Pot Tester	SPM6	6 KV	\$15,395.00
	SPM10	10 KV	\$17,510.00
	SPM12	12 KV	\$19,520.00
	SPM15	15 KV	\$22,140.00
<b>"MB" Models</b> Surge, DC Hi-Pot, 3 Phase Multi Operational Surge Tester ( <b>MOST</b> ) - Bench	MB6	6 KV	\$16,375.00
	MB10	10 KV	\$18,620.00
	MB12	12 KV	\$20,730.00
	MB15	15 KV	\$23,730.00
<b>"M" Models</b> Surge, DC Hi-Pot, 3 Phase Multi Operational Surge Tester ( <b>MOST</b> ) - Portable	M6	6 KV	\$17,110.00
	M10	10 KV	\$19,330.00
	M12	12 KV	\$21,460.00
	M15	15 KV	\$24,485.00

### **PRICES** for **Console** PJ Surge Testers:

<b>DESCRIPTION</b> <i>Click on model name for information.</i>	<b>MODEL NUMBER</b>	<b>MAXIMUM OUTPUT</b>	<b>PRICE US DOLLARS</b>
<b>"C" Models</b> High Frequency Surge Tester Console (10KV - 60KV)	C10	10 KV	\$17,285.00
	C12	12 KV	\$19,395.00
	C15	15 KV	\$22,090.00
	C20	20 KV	\$24,120.00
	C25	25 KV	\$27,160.00
	C30	30 KV	\$33,420.00
	C35	35 KV	\$37,850.00
	C40	40 KV	\$43,255.00
	C50-2M*	50 KV	\$56,335.00
C60-2M*	60 KV	\$71,555.00	
<b>"TC" Models</b> High Frequency Surge Tester with 3 Phase Transfer Switch Console	TC10	10 KV	\$19,675.00
	TC12	12 KV	\$21,805.00
	TC15	15 KV	\$23,880.00
	TC20	20 KV	\$27,160.00
	TC25	25 KV	\$31,405.00
	TC30	30 KV	\$36,865.00
<b>"HC" Models</b> High Frequency Surge / DC Hi-Pot Console (10KV - 50KV)	HC10	10 KV	\$20,870.00
	HC12	12 KV	\$22,985.00
	HC15	15 KV	\$25,690.00
	HC20	20 KV	\$29,570.00
	HC25	25 KV	\$34,780.00
	HC30	30 KV	\$40,300.00
	HC35	35 KV	\$43,255.00
	HC40	40 KV	\$48,670.00
	HC50-2M*	50 KV	\$61,960.00
<b>"MC" Models</b> Surge, DC Hi-Pot, 3 Phase Multi Operational Surge Tester ( <b>MOST</b> ) Console	MC10	10 KV	\$23,285.00
	MC12	12 KV	\$25,400.00
	MC15	15 KV	\$28,130.00
	MC20	20 KV	\$32,000.00
	MC25	25 KV	\$37,470.00
	MC30	30 KV	\$43,040.00

**220-240 operating line voltage is available upon request and for an additional cost.** Add \$250.00 US Dollars for any Bench and Portable Model. For Console Model Testers from 10KV to 40KV, add \$500.00 US Dollars to the above Domestic cost. Please add the following designation, "-2M", after the model number for PJ Surge Testers designed to operate from 220-240 operating line voltage. \*50KV & 60KV models (C50, HC50 and C60) only available in 220-240VAC. Therefore, the C50, HC50 and C60 models are identified as Model C50-2M, Model HC50-2M and Model C60-2M, respectively.

**An Export Packing fee of \$150.00 US Dollars is applied to all testers shipped outside of the U.S.A.**

RENTAL UNITS AVAILABLE on selected models. Call for information.

We provide TECHNICAL SUPPORT to all customers world-wide. Click [here](#) for details.

CALIBRATION SERVICES on all PJ Surge Testers also available.

#### All Models:

- supplied with complete set of Instruction / Service manuals.
- come with a Certificate of Calibration traceable to NIST.
- meet IEEE's Standard 522-1992/2004 voltage rise time specification of 0.1µ sec.

- supplied with a Rigol **Color** Digital storage, programmable Oscilloscope with Software & bonus USB Flash Drive. A color scope will show different **colors** of waveforms for the different channels on the oscilloscope.
- have a pulse rate of 50/60 pulses per second (pulse rate predicated on the line frequency).
- have a ground detector indicator to assure operator safety (120 Volt only).
- include a foot switch safety interlock.
- equipped to operate at 120VAC, 50/60Hz., single phase (except for 50KV & 60KV models).
- capable of testing extremely low inductances (armatures, 2-3 turn form coils, etc.) - with use of a calibrated high voltage probe.
- capable of testing Fully Assembled Motors without rotating the Rotor.
- have dual waveform presentation: resonant current waveforms for low impedance windings & resonant voltage waveforms for high impedance windings.
- equipped with a digital voltage output panel meter.
- all PJ Surge Testers can surge test from 500 volts to the maximum "KV" rating of each respective model. For example, our 30KV models can surge test from 500 volts up to 30,000 volts.
- **warranted against defective materials and workmanship\* for one year with lifetime, toll free technical support!** \*at our factory

**TOP**

<b>Accessories / Options</b> (available for all models)	<b>Price - US Dollars</b>
Armature Test Yoke Assembly (ATYA) - consists of a 21 inch diameter Fiberglass Yoke*, 3 spring loaded Brass Contact Fingers and an Angle Iron Frame Stand. *It is also capable of testing 35 inch commutators by re-positioning the Yoke.	\$1,425.00
Armature Feature - Available on <b>select</b> models: S, TS, SP, MB Bench Models (6KV to 15KV only) and on Console Models up to 15kV only. With this optional Armature Feature, these models will have a high voltage rotary switch to permit the tester to operate as either a low inductance Armature Tester or a standard Surge Tester.	\$1,525.00
Printer Option - Compact High Resolution Canon Pixma PictBridge™ Printer custom-installed to the surge tester of your choice.	\$495.00
Upgraded Oscilloscope Option - now available on all of our Console Model Testers (10KV to 40KV) and on our Bench "S" Model PJ Testers: it is a color Rigol DS2000 series storage, programmable UltraVision oscilloscope with more features than our standard DSE scope, better Software, a 2 GSa/s sampling rate and an 8" display screen (versus a 5.5" screen on the DSE).	\$795.00
Various Calibrated High Voltage Probes. (A probe is a valuable device for the following: verifying output voltage and voltage risetime, performing calibration and diagnostic purposes.)	call for details
Portable Handheld 4-wire Milli-Ohm Meter in your choice of 120 VAC, 220 VAC or Battery Operated.	call for details

Portable Handheld Digital Megohmmeter, up to 5KV DC Voltage, up to 250 Giga Ohms, Battery Operated.

call for details

Prices and Oscilloscopes are subject to change without notice. All cancelled orders will be subject to a cancellation charge. A restocking fee will be incurred for any returned items, pending prior return authorization, call for details.

 Some Flags Not Shown.

**Please note:** When you select a language by clicking on a Flag, a separate page will open for "Google Translate". You will need to type in our Website address: [www.pjelectronics.com](http://www.pjelectronics.com). Be sure that "English" language is selected under the "From" drop down box and then Select your desired language under the "To" drop down box (Note: at this time you have the option to select several other Country/language choices). Now press the "Translate" button. If the language that you selected is accepted for translation, please use the translated Links on the translated homepage to view this page/link and other translated pages of our website. Please remember that Google is **not** a Technical website, therefore, some words may **not** translate correctly. We apologize if your particular Country/language is not listed or not available for translation.
